

Otago Genomics & Bioinformatics Facility

OGBF Bioinformatics Workshop Workflows for ChIP-Seq projects

The Otago Genomics & Bioinformatics Facility invites you to this free workshop which serves as an introduction to transcriptional regulation studies using sequencing data (hands-on). In the workshop, *we will cover:*

- Correct project design
- Data QC and clean-up
- Peak calling and annotation
- Different types of workflows for different cases
- Explore relevant databases and datasets you can use in your analysis.

Biochemistry Dept Rm 231, 2nd floor

Wednesday, 29th November 2017 10.00am - 5.00pm

OR

Hercus D'Ath Theatre

Thursday, 16th November 2017 10.00am - 5.00pm

⇒ **Registration essential: genomics@otago.ac.nz**

⇒ **Laptops are required**
